We create the future together with our clients

AARON GROUP is a Czech company specialized in delivering comprehensive solutions in the field of e-Commerce.

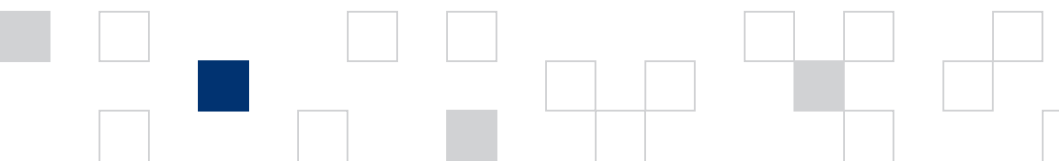

For more than 15 years we have been a strategic partner for our customers, delivering solutions that increase productivity and efficiency, reduce expenses and enhance competitiveness.

Our philosophy is to offer our customers functional and sustainable solutions consistently.

We are always looking for new paths that lead to success, and solutions that will guarantee high added value. Our solutions are flexible and able to adapt to our customers' needs and market trends.

We choose technologies that are promising and which provide a stable basis for further development.

Our advantage is the individual appraisal of each project we take on, with an emphasis on quality technical processing and user-friendliness.

We offer functional solutions...

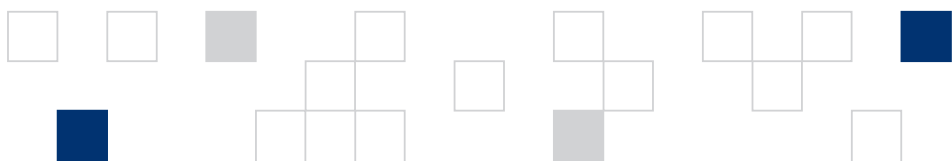

Paython

The Paython payment centre is a unique and comprehensive solution for online payments with a direct connection to a number of global and local providers (PSP) and offers dozens of payment methods used not only in the Czech Republic but also in most countries in the world.

The system is supported by 3D Secure and meets the safety standards of the Payment Card Industry Security Standard (PCI-DSS). Paython is a very advanced payment centre and is currently used in 15 countries.

Symphony

A fully customizable e-Commerce solution, Symphony is a modular Internet booking engine (IBE) which represents a new generation in providing travel services. Whether it is the online sale of airline tickets, the airline tickets of low cost carriers (LCC), accommodation, travel insurance, parking space reservation or other additional services, Symphony is able to offer an effective solution to increase sales. Currently, there are more than 200 applications connected with Symphony, which generate a turnover of billions of Czech Crowns.

... that bring success to our customers

WebWalker

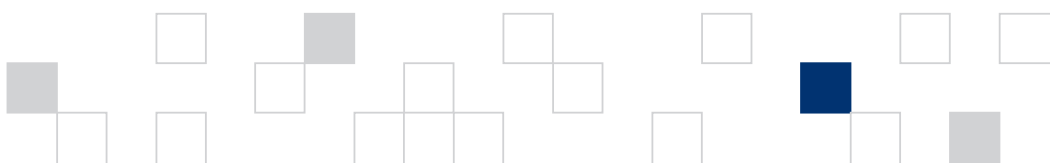

A system for automated web application testing, which simulates different user behaviour and allows you to test an application at significantly lower costs. WebWalker offers advanced decision support tools, with graphic visualization of the results, which significantly help to simplify communication and repair speed even if errors occur, and streamline the process of checking by the Q/A Manager.

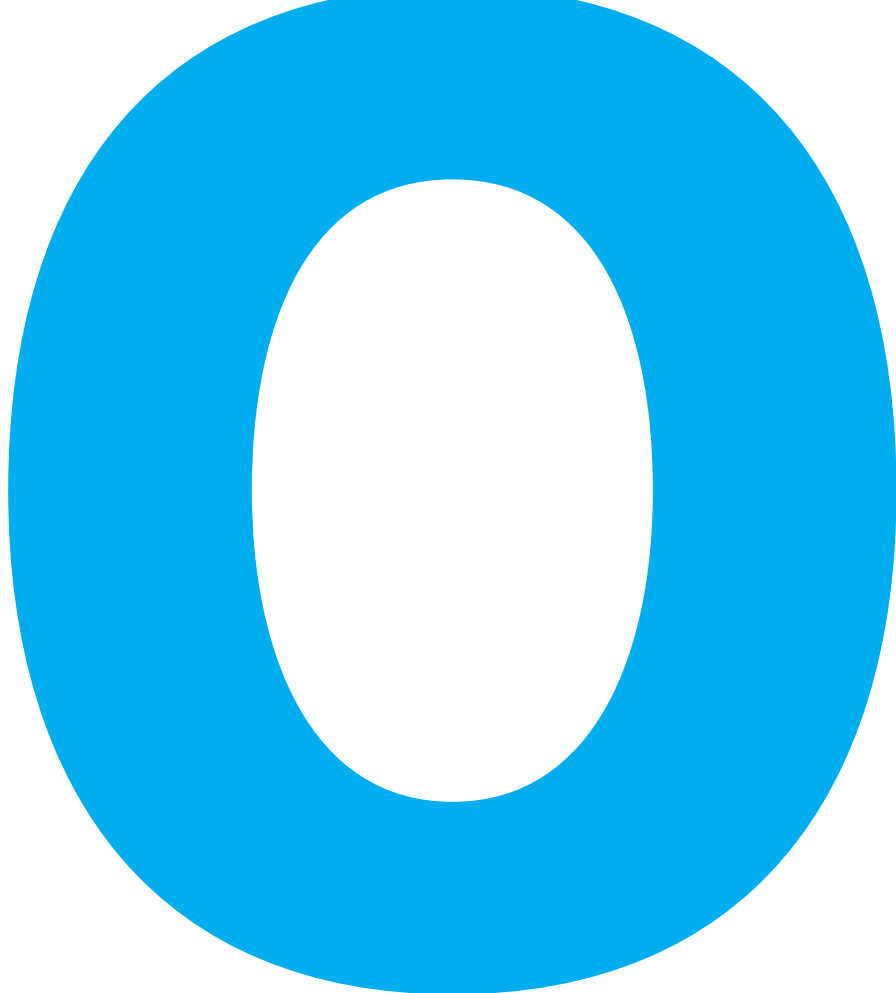

Benefito

An extensive framework that provides a large platform of components for the effective development of comprehensive internet solutions including administration and business intelligent tools, Content Management System (CMS) for web portals, reporting and more.

Tabletenky

The first Czech-Slovak comparer of flight tickets for mobile devices. You can search for flights all over the world for the best prices. Simple to use, it allows you to find the cheapest price to your desired destination in a few seconds. Tabletenky are available free of charge at the App Store and Google Play.

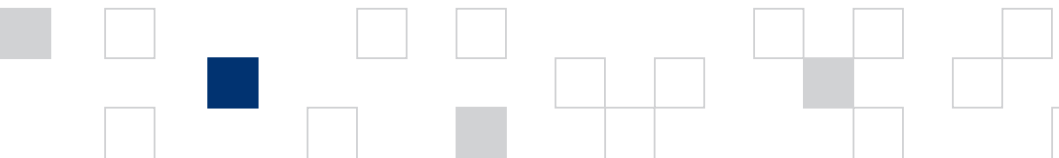

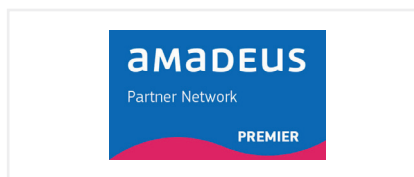

Our solutions are tops in e-Commerce

We have repeatedly placed in the medal positions in the prestigious competition **Internet Effectiveness Awards** with these solutions: Claims Online, Letuška.CZ, FlyLine Plus ERV Evropská pojišťovna, Student Agency, and others.

Five times in a row, **the company AARON GROUP** was announced by Deloitte as being in the **"TOP50"** – among the fastest-growing technology companies in Central Europe.

We are a member of the prestigious **Asociace.BIZ** of internet solution providers.

We have a strategic partnership with the companies **Amadeus** (Premium Partner) and **SITA**.
